BRAND IDENTITY GUIDELINES

VOLUME ONE — 2026

A woven lattice — two W's interlaced, warp over weft.

THE MONOGRAM

The mark is built from two interlocking W's: one descending, one ascending. Where they cross they form a diamond lattice — the structure of woven cloth reduced to its purest geometry.

No illustration, no ornament. A single line weight, four intersections, one idea: made well, woven well.

CONSTRUCTED ON A 4 × 4 UNIT GRID · STROKE = 1/18 OF WIDTH

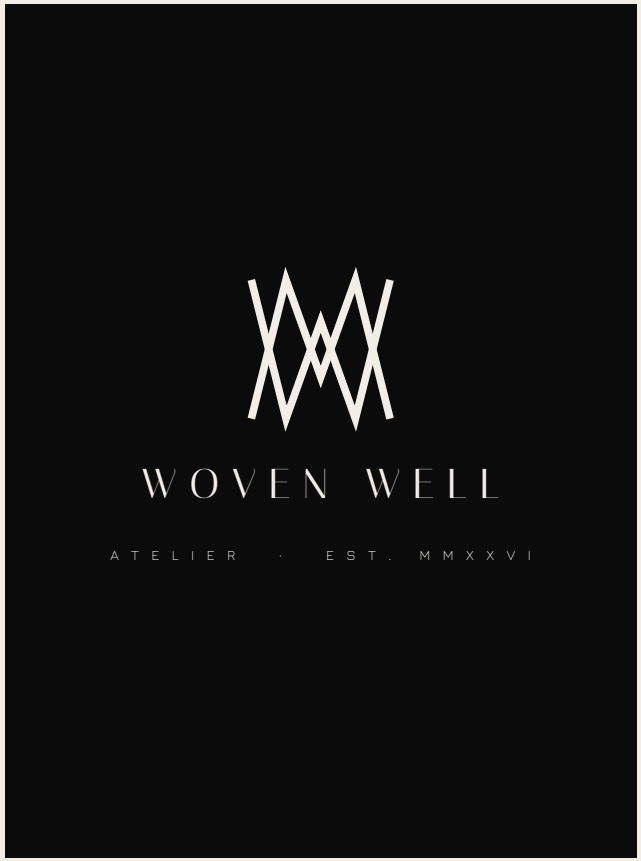
Primary stacked lockup, horizontal lockup, and standalone monogram.

PRIMARY · STACKED

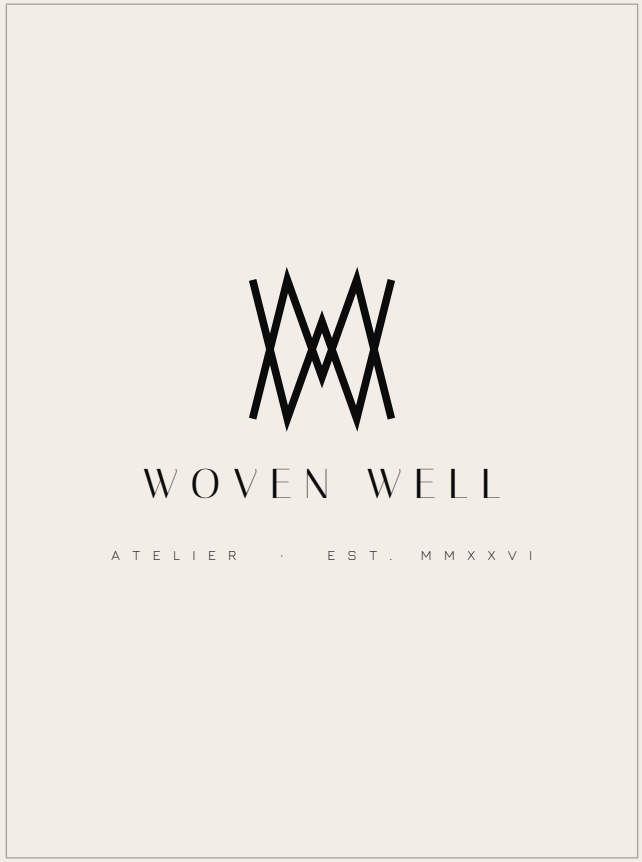
HORIZONTAL

MONOGRAM

The identity is complete in one colour. Reversed, positive, and single-tone metal.



REVERSED — INK GROUND



POSITIVE — IVORY GROUND

SINGLE TONE — GRAPHITE

Protect the mark. Never crowd it, never shrink it past legibility.

CLEAR SPACE

MINIMUM SIZES

PRINT · MONOGRAM	8 mm
PRINT · STACKED LOCKUP	18 mm
DIGITAL · MONOGRAM	24 px
WOVEN LABEL / EMBROIDERY	12 mm

Below 12 mm on woven or embroidered goods, use the monogram alone.

Correct on the left. Never on the right.

CORRECT

- Single flat colour from the palette
- Full clear space preserved
- Monogram alone at small scale
- Reversed ivory on ink ground
- Original proportions, always

INCORRECT

- ✕ Do not stretch, skew or rotate
- ✕ Do not add shadows, glows or 3D
- ✕ Do not apply gradients or textures
- ✕ Do not outline or re-weight the strokes
- ✕ Do not place on busy imagery or low contrast
- ✕ Do not re-typeset the wordmark

Two essentials, two supports. Ink and ivory carry the identity.
